Which Sewers?
stop and ASK!

Mr. Robert Van Riper,
Division Engineer
Bureau of Sewers
City Hall
Newark, New Jersey 07102

Dear Mr. Van Riper:

We of the Mid-Renner Avenue Association in complaint of the absolute neglect of the sewers in our neighborhood are herewith requesting justice for our tax dollar. We had inform the Department of Public Works in our July 23dd letter by error of our dissatifaction. We are now telling you the same. "The sewers with the slightess rain drop will begin to flood to the point you cannot cross the corner of the block, therefore making it equally hard to cross in the middle because of the water backing up.

e were informed of the cleaning of sewers in the Central Ward. We of the outh Ward are asking for the same justic. We also ask that once you pull l the debris taken away.

hope to hear from you soon.

Respectfully,

MID-RENNER AVENUE ASSOCIATION
